## Procedure

Below is an outline for a typical procedure we follow when installing your new counters:

1. Estimate given.
2. Contract signed.
3. Deposit paid - Material to be paid in full upon delivery to G&D Marble and Granite INC and 50% of the fabrication deposit paid before template taking.
4. Template taken - It is highly recommended that the homeowner and/or contractor be present for templates. We wish to ensure that all the requests of the homeowner are met; e.g., seam location and confirmation of edge detail. Please have sinks available at job site.
5. Layout - G&D Marble and Granite INC recommends that customers come to our shop for a layout of templates on material to ensure that veining pattern and match are completed to your satisfaction. Certain materials do not require a layout, such as consistent granite colors or quartz materials.
6. Fabrication completed.
7. Installation of counters - Upon completion of counter installation, payment in full of remaining balance is due for homeowners, and within ten days for contractors. All our installations include sealer.
